What None of Our
Competitors Have to Offer

Automated
Booking-Phone-Calls

How it Works

Privacy – Our No. 1 Priority

All of the AI models we use
in our project are

SELF-HOSTED

Our Route-Algorithm Iterations

- Brute Force (waaayyy too slow)
- Star Graph Optimization
- Genetic Algorithm
 - Has lots of potential
 - Requires lots of trial & error and some refinement

Our AI Stack

- Genetic Machine Learning Algorithm
- Mistral Nemo 12B
- Whisper Speech-To-Text

What Sets Us Apart

Minimizing the need for human intervention.

Save time and money.

Invest more in things that matter.

What Sets Us Apart

Multiple solutions to the time intensive problem of finding ideal routes.

With the right hardware + some time: our solutions are easy refine and scale.
